Dear Mr. Weisberg:

Thank you for "Case Open." (Found it in Powell's Book Store!)
I read your recent book yesterday.
I hope you have a chance to review
this Hosty book © 1996 Assignment
Oswald. I also read what he has
to say after all of these years! It gets me
thinking - My God! What else did they hide?
And those Bureaucratic wars!!!!
To make it brief - I've had an obsession
on the JFK assassination ever since
I was in Navy during Nov, 1963.
Too much to relate to you about my
life in Europe & NYC & my Chinese,
Russian, German, Japanese friends.
Was in Cuba 1964 & 1965 - (Leeward Pt &)
& down there during the 1965 Santo Domingo
crisis & showdown with Cuban gun boats
& USSR Naval Task Force in Guano Bay
Leeward Point (U-2 marine air base),

I've been collecting documents + books
Reading
Writing from + on.
Cuban-Soviet connections in JFK assassination
since 1960s!

I did not realize that you had written so
many books on JFK assassination!
I would like to order a few books you
have written. Perhaps your 1st book + obtain
list of books you have written + avail
- cost + P/H! & do have a copy of
your "never again." I'm in process of
reading!

I'm really interested to read those who 1st
were writing about the JFK affair in
early 1960s -!
Me I've been reading + forming my own views
from my travels + Naval experience
without reading what you have written!
(I have collected over 1000 books on assassination!)
Yes, Posner is a real rat! I agree!
How could he write such a book?
A very slick operator! Americans want
very "simple" answers - They (or many)
do not want to dig to search for answers!
Be easier to read - "No Thought" - Thi easy
Quick sell!!

I have an interest in this affair
of JFK ~~few of my~~ friends do!
Most think I am a "kook" if I expound
or get into the assassination —
one can not even discuss "open views" on JFK affair
— few care ??
Most Americans (even those of 1960s
generation) do not want to see another
assassination book!?

Yes, I'm interested in reading what
you have spent much of your life
researching.

I've never thought it was a waste of time
to read & try to understand the forces
at work yesterday & what is
happening today! The bureaucracy! (Ha!
I hope I am "open-minded" enough.
to see the whole power relationship(s)
in a new light today! And begin anew
with a fresh view & approach to
the Assassination — even at 54 years
& so many years abroad! (after 32 years!)
I've collected too many articles on assassination
& American-Soviet-Cuban intelligence!
Always clipping articles from newspapers &
magazines!

I've lived in NYC for over 25 years! I'm a New Yorker! Befriended almost 100 Exiled Russians from 1977 onwards. The Intellectuals - Elite from Leningrad! Learned alot of what happened over there in USSR during 1960s!

We are damn lucky to be alive! To have avoided nuclear war in 62 - 64 + 1965 when I was in Cuba! (VP - anti-Sub Squadron)!

I lived in Germany (BDR) in 1960s + 1970s - + moved easily within the German - Japanese + Chinese + Russian Exile community in NYC during these years 1960s - 1980s!

=

I still hope I could obtain several of your books + several other 1960s writers you may also have available! on assassination JFK

You know - even the libraries don't have any or many of the early 1960s assassination literature avail - Powells - Strands + our Salem Library! One has to dig + even get the books! Unbelievable!

Guard your files with your life!!!!
